

Summer Math Camps at TMT

Now offering camps for all levels to ensure success when school begins in the fall!

Math Foundations Grades 3-5: With Nicole

Build strong math skills and confidence this summer! Our Elementary Math Foundations Summer Camp is designed for students preparing to enter 3rd, 4th, or 5th grade who want to strengthen the essential skills needed for success. Through engaging lessons, games, and hands-on activities, students will practice key concepts such as multiplication, division, fractions, and problem-solving strategies.

With small-group instruction and plenty of encouragement, campers will review important math foundations, fill in learning gaps, and develop the confidence to tackle new challenges in the upcoming school year. This camp is a fun and supportive way to keep math skills sharp and get ready for the next grade level!   

One week sessions (4 days) offered August 3rd-6th or August 10th-13th.

Entering 6th grade: Middle school success! Math and Writing: With Nicole

Give your child a confident start to middle school! Our Middle School Readiness Summer Camp is designed specifically for students entering 6th grade who want to strengthen their math and writing skills while building the organization and confidence needed for middle school success. Through engaging lessons, hands-on activities, and small-group instruction, students will review key math concepts, practice writing clear and structured paragraphs, and learn strategies for managing assignments and staying organized. This supportive and encouraging camp helps students bridge the gap between elementary and middle school so they start the year prepared, confident, and ready to succeed.

One week sessions (4 days) offered August 17th-20th or August 24th-27th.

- **ALL above camps will take place from 9-11am, Monday-Thursday**
- **ALL materials will be provided. Daily homework will be a part of this camp.**
- **Enrollment will be limited to 4 students to ensure personalized support.**

Entering 7th Grade: With Tyler

7th grade is a pivotal math year and easily our most requested grade and subject for support. This camp will focus on the foundational skills necessary for success in 7th grade. Ratios, basic algebra, percents, decimals, fractions, geometry, number sense and more will be covered. Current curriculum used in Bend middle schools will be utilized as well. In addition to skills, we will help teach students how to ask questions and advocate for themselves when math gets tricky. Building confidence along with skills will be at the core of this camp!

This Camp will take place: Aug 17-20 and Aug 24-27 from 9-10 (2 week long camp)

Entering 8th Grade: With Tyler

Students entering 8th grade should have a solid understanding of what was covered in 7th. Basically 8th grade builds on all those skills. This camp will review the central skills from 7th grade. Algebra, negative numbers, geometry, percents, fractions, proportional relationships, graphing, and more will be reviewed. Continued work with self advocacy and perseverance will be heavily focused on as well.

This Camp will take place: Aug 17-20 and Aug 24-27 from 10-11 (2 week long camp)

Entering 9th Grade: With Tyler

The jump to high school can be challenging and this camp is designed to smooth out the transition. Having worked with kids in all the high schools I will tailor instruction to what high school each student is attending. We will review key concepts necessary for high school success. Algebra will be the central focus along with other foundational skills that will give students a leg up when starting high school.

This Camp will take place: Aug 17-20 and Aug 24-27 from 11-12 (2 week long camp)

- **ALL Materials will be provided**
- **Enrollment will be limited to 4 students to ensure personalized support.**
- **Daily homework provided**
- **ALL camps are 2 weeks in length M-Th each week**

REGISTRATION BEGINS APRIL 1. Please reach out if you have any questions!

Thanks,

The TMT Team
